KEYVIT ADVANCE IMMUNE BOOST

Daily vitamin and mineral supplement

Vitamin C · Vitamin D3 · Zinc · Selenium

What is Keyvit Advance Immune Boost?

A once-daily capsule that combines vitamin C, vitamin D3, zinc and selenium. These are an essential combination of micronutrients that work together to support immune function, reduce oxidative stress and maintain overall cellular health.

30 capsules | Sugar free | Plant-based capsule | Once daily

Vitamin C — 975 mg

- A powerful water-soluble antioxidant
- Supports white blood cell function
- Needed for collagen, which supports skin, cartilage, bones and teeth

Vitamin D3 — 25 mcg

- Supports immune responses
- Supports bone and muscle strength
- Helps the body absorb calcium for bone health

Zinc — 25 mg

- Contributes to the normal function of the immune system
- Involved in immune cell development and signalling
- Supports wound healing and DNA synthesis

Selenium — 60 mcg

- An antioxidant mineral that helps neutralise free radicals
- Helps protect cells from oxidative damage
- Supports healthy thyroid hormone metabolism

Amounts per capsule.

Why a daily supplement?

A balanced diet is the best source of these nutrients. Busy lives, stress and an imbalanced diet can make it hard to get enough of each from food alone, and a supplement can help bridge the gap. Taking it consistently every day helps the body keep up adequate levels.
